			<p>Many VM3 residents have already had their cast iron drain pipes under their house fail. Previously the only solution was to tear up your floors, replace all pipes and then put your house back to normal. It usually entails a week of vacating your home and cleaning up a large mess when done. Costs run from \$25,000 to \$40,000. However, Cured in place pipe lining is a more reasonable and viable option. Currently there are two companies in the Scottsdale area who are State of AZ certified.</p> <p>I contacted NuDrain Phoenix (Peerless Plumbing) and got a free inspection. Its technology that been proven for over 30 years in the United States and across Europe and has been available in the valley for over 15 years. NuDrain Phoenix has been installing the lining since 2008 and is the only company to obtain a specialty license by the Registrar of Contractors for trenchless pipe rehabilitation. The cost is 60-70% less and no interior mess. They access your lines from clean outs and roof vents. It took them 2 days and I had full access each evening to all my drains. I now have 6 friends who have used their service with complete satisfaction. Here is a link to the process: https://youtu.be/YHOXVabl0w</p>
